

JOB OFFER: PROJECT FINANCE MANAGER

CONTEXT

Nachtigal Hydro Power Company (NHPC) is a Cameroonian public limited company (SA), owned by Electricité de France (40%), the International Finance Corporation (20%), the Republic of Cameroon (15%), Africa50 (15%), and STOA (10%).

Created in 2016, NHPC's mission is the design, financing, and construction of the Nachtigal Amont hydroelectric development and the energy evacuation transmission line. The company has also been entrusted by the State with the operation of the hydroelectric development for 35 years, establishing itself as a permanent player in the Cameroonian electricity sector.

To date, Nachtigal is the largest public-private partnership in the energy sector in sub-Saharan Africa, financed 24% by its shareholders and 76% by debt. This magnificent human and industrial adventure will see its work start in the first months of 2019 for commercial commissioning scheduled before the end of the first half of 2025. With its 420 MW, Nachtigal will then be the largest production plant in Cameroon, providing competitive, abundant energy (30% of the country's energy) with no CO2 emissions.

At the heart of this formidable project, the men and women of NHPC, alongside our partners, will have the mission of making Nachtigal an exemplary company in the service of Cameroon's sustainable development.

It is in this context that the Finance Department based in Yaoundé is looking for a Project Finance Manager.
