NHPC honored at the 2026 Cameroon V.I.E Grand Prix

A V.I.E pathway praised

On the 7th of May 2026, the 2026 V.I.E Cameroon Grand Prix took place, organized by Business France and the French Foreign Trade Advisors; an event dedicated to highlighting the career paths and impact of International Corporate Volunteers.

On this occasion, Claris Parenti, Environmental & Social Coordinator at NHPC, won second prize in the Environmental Impact and Sustainable Transition category for the quality of her commitment and her contribution to the environmental and social activities of the Nachtigal project.

Her career has been recognized for her central role in environmental and social monitoring and reporting, coordinating communications with donors, and supporting the implementation of various action plans relating to the operation of the Nachtigal hydroelectric power station.

This award is also a tribute to the entire team at NHPC's Environment and Social Direction, whose daily commitment has enabled concrete action to be taken to preserve biodiversity and improve the living conditions of communities living around the Nachtigal project.

This award further reinforces the recognition of the Nachtigal project as a major project contributing to Cameroon's development.
